("Petitioner") filed a petition for creation of Lakeview Municipal Utility District No. 1 of Ellis County (District) with the Texas Commission on Environmental Quality (TCEQ). The petition was filed pursuant to Article XVI, Section 59 of the Constitution of the State of Texas; Chapters 49 and 54 of the Texas Water Code; 30 Texas Administrative Code Chapter 293; and the procedural rules of the TCEQ. The petition states that: (1) the Petitioner holds title to the majority of the assessed value of the land to be included in the proposed District; (2) there are no lienholders on the property to be included in the proposed District; (3) the proposed District will contain approximately 362.037 acres located within Ellis County, Texas; (4) the proposed District is within the extraterritorial jurisdiction of the City of Waxahachie, Texas; and (5) although the City of Waxahachie (City) has not consented to creation of the District, the Petitioner has satisfied the requirements of Texas Water Code Section 54.016(b) and (c) and Texas Local Government Code Section 42.042, so that the authorization for inclusion of the land in the proposed District may be assumed pursuant to the cited statutes. The petition also states that the proposed District will: (1) construct, purchase, acquire, improve, or extend, inside or outside of its boundaries, any and all works, improvements, facilities, plants, equipment, and appliances necessary or helpful to supply and distribute water for municipal, domestic, and commercial uses; (2) collect, transport, process, dispose of and control domestic and commercial wastes; (3) gather, collect, convey, abate, amend and control local storm water or other local harmful excess of water in the District; (4) design, acquire, construct, finance, improve, maintain and operate macadamized, graveled or paved roads, and highways; or improvements in aid of those roads; (5) and purchase, construct, acquire, improve, or extend, inside or outside of its boundaries, such additional facilities, systems, plants, and enterprises as shall be consonant with the purposes for which the District is created. It further states that the planned residential and commercial development of the area and the present and future inhabitants of the area will be benefited by the above-referenced work, which will promote the protection of the purity and sanitary condition of the State's waters and the public health and welfare of the community, thereby constituting a public necessity. According to the petition, a preliminary investigation has been made to determine the cost of the project, and it is estimated by the Petitioner, that the cost of said project will be approximately $56,925,000. The financial analysis in the application was based on an estimated $56,840,000 ($34,185,000 for water, wastewater and drainage and $22,655,000 for roads) at the time of submittal. In accordance with Texas Local Government Code Section 42.042 and Texas Water Code Section 54.016, the Petitioner submitted a petition to the City, requesting the City's consent to the creation of the District. After more than 90 days passed without receiving consent, the petitioner submitted a petition to the City to provide water or sewer services to the District. The 120-day period for reaching a mutually agreeable contract as established by the Texas Water Code Section 54.016(c) expired and the information provided indicates that the Petitioners and the City have not executed a mutually agreeable contract for service. Pursuant to Texas Water Code Section 54.016(d), failure to execute such an agreement constitutes authorization for the Petitioner to initiate proceedings to include the land within the district.

Notice of Virtual Public Meeting on April 22, 2021 Concerning the Wigginsville Road Groundwater Plume

The purpose of the meeting is to obtain public input and information concerning proposal of the Wigginsville Road Groundwater Plume (site) in Montgomery County, Texas to the Texas Superfund Registry, the identification of potentially responsible parties, and the proposal of residential land use.

The Texas Commission on Environmental Quality (TCEQ or commission) is required under the Texas Solid Waste Disposal Act, Texas Health and Safety Code (THSC), Chapter 361, as amended, to annually publish the Texas Superfund Registry which identifies facilities that may constitute an imminent and substantial endangerment to public health and safety or the environment due to a release or threatened release of hazardous substances into the environment. The most recent registry listing of these facilities was published in the October 23, 2020, issue of the Texas Register (45 TexReg 7633).

In accordance with THSC, §361.184(a), the commission must publish a notice of intent to list a site on the Texas Superfund Registry in the Texas Register and in a newspaper of general circulation in the county in which the site is located. The commission hereby gives notice that the executive director has determined that the site is eligible for listing and the executive director proposes to list the site on the Texas Superfund Registry. By this publication, the commission also gives notice that it proposes a land use of residential as appropriate for the site.

This publication also specifies below the general nature of the potential endangerment to public health and safety or the environment as determined by information currently available to the executive director. This notice of intent to list this site was also published on March 12, 2021, in The Courier of Montgomery County newspaper.

The site proposed for listing is located near the 13400 block of Wigginsville Road in Montgomery County, Texas. The geographic coordinates of the site are Latitude 30 degrees 15 minutes 45.3276 seconds North and Longitude 95 degrees 20 minutes 9.1104 seconds West. The description of the site is based on information available at the site the site was evaluated with the Hazard Ranking System (HRS). The HRS is the principal screening guide used by the commission to evaluate potential, relative risk to public health and the environment from releases or threatened releases of hazardous substances. The site description may change as additional information is gathered on the sources and extent of contamination.

The site is a mercury-contaminated groundwater plume in the Chicot Aquifer from an unknown source. The groundwater migration pathway is the pathway of concern for this site. Groundwater from the Chicot Aquifer is used primarily for drinking water in the site area. The Evangeline Aquifer is another essential groundwater resource in the site area, and it is beneath the Chicot Aquifer. There are 53 identified domestic water wells and four public water supply wells located within a one-mile radius of the site which draw water from the Chicot and Evangeline Aquifers. Based on the water well data maintained by the Texas Department of Licensing and Regulation, the deepest well is screened approximately 670 feet below ground surface.

Mercury contamination was initially discovered during routine monitoring of the well at a church (the indicator well) in October 2013. Samples collected through July 2015 indicated that the mercury level
in the well was above the allowable amount for drinking water referred
to as the maximum contaminant level or MCL. The church plugged and
abandoned the indicator well and installed a new well which has had
no mercury detections. The site was referred to the TCEQ's Superfund
Site Discovery and Assessment Program in May 2015. The program
assessed the site and detected mercury in eight groundwater wells in
the site area. One of these eight wells is a residential well located ap-
proximately 0.3 miles west-northwest of the indicator well which has
exceeded the mercury MCL since sampling began in 2017. TCEQ in-
stalled a filtration system on the residential well in June 2017 and
is maintaining the system and monitoring water quality. None of the
samples from other wells with mercury detections exceeded MCLs.

All identified wells with mercury detections withdraw groundwater
from the Chicot Aquifer. Mercury has not been detected in samples
from the deeper Evangeline Aquifer.

A virtual public meeting will be held on April 22, 2021, at 6:00 p.m.
via Microsoft Teams live. Public meeting information and other site
information will be available on the TCEQ's site webpage, prior to the
meeting https://www.tceq.texas.gov/remediation/superfund/sites/by-
name.html. The purpose of this meeting is to obtain additional
information regarding the site relative to its eligibility for listing on
the state registry and identify any additional potentially responsible
parties. The public meeting is not a contested case hearing under
the Texas Administrative Procedure Act (Texas Government Code,
Chapter 2001).

All persons desiring to make comments may do so prior to or at the
public meeting. All comments submitted prior to the public meeting must
be received by 5:00 p.m. on April 21, 2021, and should be sent in
writing to Parker Leglue, Project Manager, TCEQ, Remediation Divi-
Sion, MC 136, P.O. Box 13087, Austin, Texas 78711-3087 or facsimile
at (512) 239-2450 or via email to Superfund@tceq.texas.gov. The pub-
lic comment period for this action will end at the close of the public
meeting on April 22, 2021.

In the event the Texas Lottery Retailer cannot verify the claim, the Texas Lottery Retailer shall provide the claimant with a claim form and instruct the claimant on how to file a claim with the Texas Lottery. If the claim is validated by the Texas Lottery, a check shall be forwarded to the claimant in the amount due. In the event the claim is not validated, the claim shall be denied and the claimant shall be notified promptly.
A claimant may also claim any of the above prizes under the procedure described in Section 2.3.B and Section 2.3.C of these Game Procedures.
B. To claim a "WINNING STREAK" Scratch Ticket Game prize of $1,000 or $100,000, the claimant must sign the winning Scratch Ticket and may present it at one of the Texas Lottery’s Claim Centers. If the claim is validated by the Texas Lottery, payment will be made to the bearer of the validated winning Scratch Ticket for that prize upon presentation of proper identification. When paying a prize of $600 or more, the Texas Lottery shall file the appropriate income reporting form with the Internal Revenue Service (IRS) and shall withhold federal income tax at a rate set by the IRS if required. In the event that the claim is not validated by the Texas Lottery, the claim shall be denied and the claimant shall be notified promptly.

C. As an alternative method of claiming a "WINNING STREAK" Scratch Ticket Game prize the claimant may submit the signed winning Scratch Ticket and a thoroughly completed claim form via mail. Mail all to: Texas Lottery Commission, P.O. Box 16600, Austin, Texas 78761-6600. The Texas Lottery is not responsible for Scratch Tickets lost in the mail. In the event that the claim is not validated by the Texas Lottery, the claim shall be denied and the claimant shall be notified promptly.

D. Prior to payment by the Texas Lottery of any prize, the Texas Lottery shall deduct the amount of a delinquent tax or other money from the winnings of a prize winner who has been finally determined to be:

Notwithstanding any name or names submitted on a claim form, the Executive Director shall make payment to the player whose signature appears on the back of the Scratch Ticket in the space designated. If more than one name appears on the back of the Scratch Ticket, the Executive Director will require that one of those players whose name appears therein be designated by such players to receive payment.

B. The Texas Lottery shall not be responsible for lost or stolen Scratch Tickets and shall not be required to pay on a lost or stolen Scratch Ticket.
