Texas Commission on Environmental Quality

Filed: April 21, 2026

Combined Notice of Public Meeting and Notice of Application and Preliminary Decision for Water Quality Land Application Permit for Municipal Wastewater New Permit No. WQ0016844001

APPLICATION AND PRELIMINARY DECISION. HK Bellas Ranch, LLC, 24607 Fairway Springs, San Antonio, Texas 78260, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016844001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 250,000 gallons per day. TCEQ received this application on July 8, 2025.

The facility will be located at 4356 U.S. Highway 181 North, in Wilson County, Texas 78114. The treated effluent will be discharged to Kicaster Creek, thence to the San Antonio River in Segment No. 1911 of the San Antonio River Basin. The unclassified receiving water use is limited aquatic life use for Kicaster Creek. The designated uses for Segment No. 1911 are primary contact recreation and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review is not required since no exceptional, high, or intermediate aquatic life use water bodies have been identified in the discharge route. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Floresville City Hall, 1120 D Street, Floresville, in Wilson County, Texas. The application and associated notices are available electronically for viewing and copying at the following webpage: <https://www.tceq.texas.gov/permitting/wastewater/pending-permits/tpdes-applications>.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The TCEQ will hold a public meeting on this application due to significant public interest.

The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

Thursday, June 11, 2026, at 7:00 p.m.

Wilson County Expo & Community Center

435 TX-97 E Floresville, Texas 78114

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at (512) 239-3300 or (800) RELAY-TX (TDD) at least five business days prior to the meeting.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsider-**

ation of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments about this application. The TCEQ will hold a public meeting on this application because it was requested by a local legislator and there is significant public interest.

The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representa-

tive for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

Notice of Public Meeting for TPDES Permit for Industrial Wastewater New Permit No. WQ0005488000

APPLICATION. Port of Corpus Christi Authority of Nueces County, P.O. Box 1541, Corpus Christi, Texas 78403, which proposes to operate Harbor Island Desalination Facility, a seawater desalination facility, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0005488000, to authorize the discharge of water treatment wastes at a daily average flow not to exceed 191,200,000 gallons per day (gpd) via Outfall 001. The TCEQ received this application on April 1, 2025.

The facility is located at 225 State Highway 361, approximately 0.8 miles south of the intersection of Harbor Island Road and State Highway 361, in the City of Port Aransas, Nueces County, Texas 78373. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

<https://gisweb.tceq.texas.gov/LocationMapper/?marker=-97.07277,27.848611&level=18>

The effluent is discharged via pipe under the Aransas Pass Channel, the Lydia Ann Channel, and San Jose Island by a submerged multi-port diffuser approximately 9,800 feet (2,987 meters) from shore directly into the Gulf of America in Segment No. 2501 of the Gulf of America. The designated uses for Segment No. 2501 are primary contact recreation, exceptional aquatic life use, and oyster waters.

In accordance with Title 30 Texas Administrative Code Section 307.5 and TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action.

Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in the Gulf of America, which has been identified as having exceptional aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received.

The TCEQ Executive Director reviewed this action for consistency with the Texas Coastal Management Program (CMP) goals and policies in accordance with the regulations of the General Land Office and has determined that the action is consistent with the applicable CMP goals and policies.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

Latitude and Longitude: 29.3067388, -94.824028

Project Description: The applicant proposes to modify DA Permit SWG-2012-00602 to mechanically and/or hydraulically dredge an 18-acre siltation basin to a maximum depth of -60 mean lower low water (MLLW) within the 33-acre TXIT berth. Approximately 289,000 cubic yards (CY) of new cut material would be removed and placed in any of the following previously approved sites: Pierce Marsh beneficial use (BU) site (SWG-2015-00313), Snake Island, SPPA, Federal dredge material placement areas (DMPAs) including San Jacinto and Pelican Island; five Port of Galveston (POG) former ship slips (#12, #14, #37, #39, and #41), POG placement area (PA), Pelican Island BU Site; and TXIT BU DMPA (SWG-2025-00116). This request also includes an additional 5 years of maintenance dredging of approximately 300,000 CY of material annually, including the maintenance material from the proposed siltation basin within the berth, and disposal of maintenance material all placement areas stated above, as well as federal open water placement areas 50 and 51. The purpose of the project is to allow for safe navigation to the TXIT berth by expanding and deepening the previously authorized siltation basin in order to capture sediment that leads to the excessive accumulation of silt in the berth.

The applicant has stated that they have avoided and minimized the environmental impacts to waters of the United States associated with the proposed activity by designing the proposed dredging to be the minimum necessary to conduct safe navigation and operations. There are also no special aquatic sites identified in the project area. The applicant has not proposed any compensatory mitigation for the proposed activity because there will be no adverse impacts to special aquatic sites. The USACE will determine the type and amount of compensatory mitigation necessary to offset losses of waters of the United States which may result from the proposed activity in accordance with 33 CFR §332.

Type of Application: U.S. Army Corps of Engineers permit application #SWG-2012-00602. This application will be reviewed pursuant to Section 10 and Section 14 of the Rivers and Harbors Act of 1899, and Section 404 of the Clean Water Act.
