Combined Amended Notice of Public Meeting and Notice of Receipt of Application and Intent to Obtain Water Quality Permit (NORI) and Notice of Application and Preliminary Decision for TPDES Permit for Municipal Wastewater New

Permit No. WQ0016390001 (Amended to reschedule the date of the public meeting)

**APPLICATION.** Megatel Homes III, LLC, Tres Rios Properties, LLC, 2101 Cedar Springs Road, Suite 700, Dallas, Texas 75201, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016390001, to authorize the discharge of treated domestic wastewater at an annual average flow not to exceed 1,330,000 gallons per day. TCEQ received this application on August 11, 2023.

**This combined notice is being issued to include public meeting information and to revise the discharge route description provided in the revised combined notice issued on February 27, 2025.**

The facility will be located approximately 2.5 miles southeast of the intersection of Algoa Friendswood Road and Farm-to-Market Road 517, in Galveston County, Texas 77511. The treated effluent will be discharged to **Gulf Coast Water Authority Canal G, thence to Galveston County Reservoir. During rare occurrences when the water in Galveston County Water Reservoir overtops its spillway, the discharge route is to Gulf Coast Water Authority Canal G, thence to Galveston County Water Reservoir, thence via spillway to Dickinson Bayou Tidal** in Segment 1103 of the San Jacinto-Brazos Coastal Basin. The unclassified receiving water use is high aquatic life use for Gulf Coast Water Authority Canal G. The designated uses for Segment No. 1103 are primary contact recreation and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's Procedures to Implement the Texas Surface Water Quality Standards (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Gulf Coast Water Authority Canal G, which has been identified as having high aquatic life uses. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

**PUBLIC COMMENT / PUBLIC MEETING.** The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period

will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

**The Public Meeting is to be held:**

**Tuesday, July 22, 2025 at 7:00 p.m.**

**Dickinson Hall and Event Center**

**4132 East 27th Street**

**Dickinson, Texas 77539**

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at (512) 239-3300 or (800) RELAY-TX (TDD) at least five business days prior to the meeting.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant material, or significant public comments. Unless the application is directly referred to a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions**

**of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

**EXECUTIVE DIRECTOR ACTION.** The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting about this application. The TCEQ will hold a public meeting on this application due to the significant amount of public interest received.

The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

**The Public Meeting is to be held:**

**Thursday, July 17, 2025, at 7:00 p.m.**

**Sonesta Hotel**

**12525 Bee Cave Parkway**

**Bee Cave, Texas 78738**

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at (512) 239-3300 or (800) RELAY-TX (TDD) at least one week prior to the meeting.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

**EXECUTIVE DIRECTOR ACTION.** The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

### Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 *Federal Register* pp. 1439 - 1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 26. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of May 19, 2025 to May 30, 2025. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§30.20(f), 30.30(h), and 30.40(e), the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, June 6, 2025. The public comment period for this project will close at 5:00 p.m. on Sunday, July 6, 2025.

Federal License and Permit Activities:

**Applicant:** DKRS, Driftwood Shores, LLC

**Location:** The project site is located in Carancahua Bay, at 1005 Shoreline Lane, in Port Lavaca, Calhoun County, Texas.

**Latitude and Longitude:** 28.713032, -96.414309

**Project Description:** The applicant is proposing work at two separate Lots within a coastal residential community known as Driftwood Shores at Wolf Point. At Lot 34, the applicant proposes work associated with the construction of a pier and kayak launch, dredging a new channel and existing pond, and installation of rip rap along the proposed new channel in Carancahua Bay. The pier structure consists of a 200-foot-long by 6-foot-wide walkway with an 8-foot-wide by 50-foot-long L-Head. The overall structure will encompass a total area of 1,200-square-foot and extend 208 feet into Carancahua Bay. The applicant proposes to mechanically dredge a total of 725 cubic yards (CY) of material from Carancahua Bay to a maximum depth of -1.5 feet mean high water for the purpose of constructing a new channel and deepening an existing pond. The dredged material will be placed onsite in uplands on Lot 34. The rip rap consists of the discharge of a maximum of 10 CY of concrete fill into Carancahua Bay below mean high water for the construction of two 20-foot-long by 5-foot-wide structures that will extend 20 feet into Carancahua Bay. At Lots 75 & 76, the applicant proposes work associated with the installation of a bulkhead, construction of a boat ramp, and construction of a marina in Carancahua Bay. The applicant proposes to discharge 1.5 CY of concrete fill material into 0.01 acre below the mean high water of Carancahua Bay to construct an 80-foot-long by 14-foot-wide boat ramp. The ma-

rina consists of a 100-foot-long by 6-foot-wide walkway, 180-foot-long by 6-foot-wide walkway, one 374-foot-long by 66-foot-wide covered boathouse, and one 374-foot-long by 76-foot-wide covered boathouse. The overall marina, including the 12-inch roof overhang, will encompass a total area of 55,508-square-foot (1.27 acres) and extend 480 feet into Carancahua Bay. The applicant has stated that the discharge of 2.5 CY of vinyl fill material into 0.01 acre to install 186 linear feet of bulkhead will be above the mean high water of Carancahua Bay. The applicant is not proposing mitigation.

**Type of Application:** U.S. Army Corps of Engineers permit application #SWG-2024-00852. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1200-F1

**Applicant:** Intercontinental Terminals Company, LLC

**Location:** The project site is located in Buffalo Bayou, approximately 1-mile west of the Beltway 8 bridge crossing Buffalo Bayou, in Houston, Harris County, Texas.

**Latitude and Longitude:** 29.740341, -95.164426

**Project Description:** The applicant proposes to construct two new barge docks, and one new ship dock, as well as the deepening of three existing docks to accommodate larger vessels. The proposed project will consist of the following activities:

- The previously authorized Barge Dock 5 dredge work of -43.5 feet max dredge depth to be modified to -18.5 feet max dredge depth.
- The previously authorized Ship Dock 6 associated dredge work to be modified from -43.5 feet max dredge depth to -47 feet max dredge depth.
- The proposed Barge Dock 5 associated dredge work of -18.5 feet max dredge depth.
- The deepening of existing Ship Dock 3 and proposed Ship Dock 4 to -43.5 feet max dredge depth.
- The deepening of existing Ship Docks 1 and 2 to -47 feet max dredge depth.
- The construction of approximately 1,020 feet of combi-wall bulkhead wall along the proposed Barge Dock 5.
- The addition of silt blade dredging methods to maintain the authorized dredge depths.

These activities will result in the dredging and excavation of approximately 582,000 cubic yards (CY) of material. Of this total, 292,000 CY of material located below the mean lower low water (MLLW) line will be dredged within a 12-acre dredge footprint to obtain a maximum dredge depth of -47 feet within Ship Docks 1, 2, and 6. An additional 112,000 CY of material located below the MLLW line will be dredged within a 5.83-acre area to obtain maximum dredge depths of -43.5 feet below MLLW within Ship Docks 3 and 4. Finally, 178,000 CY of material located below the MLLW line will be dredged to obtain maximum depths -18.5 feet below MLLW within Barge Docks 5 and 7 within 10.18 acres.

The proposed modified Barge Dock 5 will be positioned perpendicular to the Houston Ship Channel along the proposed bulkhead wall, and will consist of a full-faced fendering system. The proposed ship and barge docks will exhibit a minimum 225-foot setback from the limits of the Houston Ship Channel. The proposed modified Barge Dock 5

will be supported by concrete piles pneumatically driven to depths to ensure structural integrity.

All piles supporting the new bulkhead wall will be pneumatically driven into place and spaced accordingly to ensure structural integrity. The proposed project will also require the discharge of clean fill material behind the proposed bulkhead wall alignment. None of the proposed clean fill material will be placed below the MHW line. The applicant has not proposed to mitigate for the proposed impacts because there will be no permanent loss of waters of the U.S. and dredge material will be placed in designated placement areas.

**Type of Application:** U.S. Army Corps of Engineers permit application #SWG-2007-00909. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1212-F1

**Applicant:** Houston Jacintoport, LLC

**Location:** The project site is located in Houston Ship Channel, approximately 1.50 miles east of the intersection of Jacintoport Boulevard and Sheldon Road, in Houston, Harris County, Texas.

**Latitude and Longitude:** 29.751603, -95.099179

**Project Description:** The applicant proposes to permanently discharge 12,357 cubic yards (CY) of fill into 0.47-acre below the mean high water (MHW) of the Houston Ship Channel and conduct work associated with the construction of a new marine terminal, including the dredging of approximately 350,000 CY of material. The project components include bank stabilization and facility expansion for land-based operations, vessel loading and unloading dock infrastructure, and vessel berthing area.

The permanent fill consists of the discharge of 2,200 CY of material into 0.11-acre below the MHW of the Houston Ship Channel (Fill Area 1) and 21,660 CY of material into 0.36-acre below the MHW of the Houston Ship Channel (Fill Area 2) for the purpose of expanding the footprint needed for land-based operations. A 1,030-linear-foot bulkhead will also be installed to stabilize the shoreline.

The dock includes the construction of a 528-foot-long by 84-foot-wide platform located in uplands and within proposed Fill Areas 1 and 2 which will be located landward of the bulkhead and four 84-inch-diameter breasting dolphins. The dock will have a swinging vessel loading and unloading arm that will be attached to the platform.

The 7.32-acre vessel berthing area will be hydraulically and/or mechanically dredged to a maximum dredge depth of -48.5 feet Mean Lower Low Water (MLLW). In addition to the initial 350,000 CY of new dredge material, the applicant is requesting to perform maintenance dredging activities for a period of 10 years which is anticipated to occur on an annual basis with an estimated volume of 60,000 CY per cycle. The applicant proposes to dispose of the dredged material into a federally authorized dredge material placement area and/or a privately owned upland confined site. The applicant is not proposing mitigation.

**Type of Application:** U.S. Army Corps of Engineers permit application #SWG-2025-00194. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1213-F1

**Applicant:** Calhoun County

**Location:** The project site is located in San Antonio Bay, at 1593 Swan Point Road, in Seadrift, Calhoun County, Texas.

**Latitude and Longitude:** 28.38945556, -96.70963611

**Project Description:** The applicant proposes to discharge fill into the open water of San Antonio Bay to construct 7 acres of marsh and construct 1,100-linear-foot of breakwaters. The project is intended to restore Swan Point by creating and enhancing marsh habitat.

Approximately 27,000 cubic yards (CY) of material will be mechanically dredged from an adjacent 3.6-acre boat ramp channel and discharged in the open water to create 7 acres of marsh site which will be composed of 7 marsh cells with tidal channels between the cells. The boat ramp channel will be dredged to a maximum depth of -6 feet with an initial volume of 12,200 CY to be dredged and the balance of material coming from future maintenance dredging.

Approximately 3,000 CY of stone will be discharged in the open water to construct the 1,100-linear-foot breakwater which will be composed of 9 breakwater segments with 8 artificial reef units placed between the breakwater segments. Each stone breakwater will have a length of 90 feet with a crest elevation of +3-foot NAVD88. Artificial reef units will have a crest elevation of +2-foot NAVD88 and a length of 24 feet.

Temporary access channels, covering up to a total of 19.6 acres, will be mechanically dredged to a maximum depth of -4 feet to allow access from the boat ramp channel and the Federal Navigation Channel to the project site. The dredged material will be temporarily sidecast within the designated open water workspaces. All sidecast material will be backfilled at the completion of construction. Compensatory mitigation is not proposed.

**Type of Application:** U.S. Army Corps of Engineers permit application #SWG-2025-00151. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1215-F1

**Applicant:** 5700 PIB, LLC

**Location:** The project site is located in Galveston Bay adjacent to 5700 Harborside Drive, in Galveston, Galveston County, Texas.

**Latitude and Longitude:** 29.3017466, -94.8376734

**Project Description:** The applicant proposes to mechanically and/or hydraulically dredge approximately 600,000 cubic yards of material from a 47-acre area to maintain a depth of -25 feet Mean Lower Low Water (MLLW) for access to the existing Newport Dock. The footprint of the access channel would be widened from the previously authorized maximum width of approximately 200-250 feet to a maximum width of approximately 336 feet at the connection to the GIWW, 363 feet between the cells of Placement Area (PA) 50, 280 feet at the area adjacent to the proposed Texas International Terminal (TXIT) beneficial use dredge material placement area (BUDMPA), which is currently pending evaluation under SWG-2025-00116, and 231 feet at an area near the Newport Dock basin. Dredged material is proposed to be placed into the following dredge material placement areas (DM-PAs): Port of Galveston Ship Slips (SWG-2011-00162), Pelican Island Cells A and B, San Jacinto, Port of Texas City (Snake Island), Pierce Marsh (SWG-2015-00313), and the proposed TXIT BUDMPA, currently pending evaluation under SWG-2025-00116. These DMPAs are in addition to the previously authorized placement areas that include the uplands on the Newport Dock site, TXIT PA 5600, Pelican Island Cell C, Pelican Island Disposal Site #3 (Todd Disposal Area), and Pelican Island Disposal Site #4 (Corps).

The purpose of the project is to conduct maintenance dredging to maintain vessel access to the Newport Dock. The applicant has not proposed to mitigate for the proposed impacts because there will be no impacts to special aquatic sites or permanent impacts to aquatic resources.

**Type of Application:** U.S. Army Corps of Engineers permit application # SWG-2001-02395. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899.

**CMP Project No:** 25-1216-F1

**Applicant:** Odfjell Terminals

**Location:** The project site is located in the Bayport Turning Basin/Galveston Bay, at 12211 Port Road, in Seabrook, Harris County, Texas.

**Latitude and Longitude:** 29.608470, -95.018227

**Project Description:** The applicant proposes to perform maintenance dredging within a 12-acre area located in the Bayport Turning Basin, including an 8.6-acre area at Wharf 1 and Wharf 2 (Ship Docks) and a 3.4-acre area at Barge Docks Nos. 1, 2, and 3. Dredging would be conducted to total dredge depths of -43.5 feet mean lower low water (MLLW) at the Ship Docks and -18.5 feet MLLW at the Barge Docks, utilizing hydraulic, mechanical, and/or silt-blading methods. Approximately 45,000 cubic yards of material would be removed during each maintenance cycle. The applicant requests authorization to place the dredged material in one or more of the following Dredged Material Placement Areas (DMPAs): Spillman Island, Atkinson Island, DMPA No. 16, DMPA No. 15, DMPA No. 14, or the Mid Bay Placement Area. Additionally, the applicant seeks approval to conduct recurring maintenance dredging over a 10-year period.

The applicant is not proposing mitigation as the project does not involve impacts to special aquatic sites or other aquatic features that would warrant compensatory mitigation. All dredging activities are confined to previously authorized and historically disturbed deepwater areas within the existing navigation footprint, with no anticipated effects to wetlands, vegetated shallows, or other sensitive aquatic habitats. As such, the project is not expected to result in the loss of aquatic resource functions that would require mitigation.

**Type of Application:** U.S. Army Corps of Engineers permit application #SWG-2002-02976. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1217-F1

**Applicant:** Texas International Terminals

**Location:** The project site is located in Galveston Bay/Galveston Ship Channel at an area approximately 0.5 miles northwest of the intersection of Port Industrial Road and the Pelican Island Causeway, in Galveston, Galveston County, Texas.

**Latitude and Longitude:** 29.3033, -94.8323

**Project Description:** The applicant proposes to discharge dredged material into approximately 50 acres of Galveston Bay to construct a beneficial use dredge material placement area (BUDMPA) that will receive maintenance dredge material from the Texas International Terminal (TXIT) Berths (authorized by Department of the Army Permit SWG-2012-00602). The proposed BUDMPA consists of building low-profile containment levees approximately 4,315 feet long by 97 feet wide (7.5 acres), using 54,025 cubic yards (CY) of material dredged from the interior of the proposed BUDMPA, placed over geotextile fabric, and armored with 18 inches (8,220 CY) of rip rap placed at a 3:1 slope

to provide erosion resistance. The low-profile containment levees will be constructed to a maximum height of +2.80 feet mean high water (MHW). Dredging of the interior of the BUDMPA will remove approximately 1,145,681 CY of material to a depth of -24 feet mean sea level and will be done with various methods, including barge-mounted excavators, pontoon excavators, and clamshell dredging. Any excess dredge material will be placed within the TXIT-owned Placement Area (PA) 5600. The interior of the BUDMPA will then be gradually filled with maintenance dredge material from the TXIT Berths until the ideal elevation (+2.3 feet MHW) is reached to allow for the establishment and growth of 41.5 acres of intertidal marsh habitat. Three cuts will then be made into the levee to create 1 acre of tidal circulation channels that allow for water and nutrient exchange and support fish and wildlife by providing a connection to the greater Galveston Bay system. The circulation channels will be deep enough to preclude the growth of vegetation in the channel and remain open water channels within the site. The circulation channels will also cross the site to create three separate wetland establishment planting areas.

The applicant stated that the main purpose of the project is to provide authorized confined placement location(s) within 5 miles of the TXIT Basin capable of receiving dredged material from the TXIT Basin via pipeline. This would allow for the utilization of smaller and more widely available dredging equipment, compared to offshore disposal, to create stability for future operations and navigation of vessels within the TXIT Basin. The applicant has not proposed to mitigate for the proposed impacts because there will be no impacts to special aquatic sites or permanent impacts to aquatic resources.

**Type of Application:** U.S. Army Corps of Engineers permit application #SWG-2025-00116. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

## Texas Health and Human Services Commission

Public Notice: Addendum to the Statewide Transition Plan for Medicaid Home and Community Based Services Settings

The Texas Health and Human Services Commission (HHSC) announces its intent to submit an addendum to the Home and Community-Based Services (HCBS) Settings Statewide Transition Plan (STP) to the Centers for Medicare & Medicaid Services (CMS) for approval. Title 42 Code of Federal Regulations, Sections 441.301(c)(6) and 441.710(a)(3) requires states to publish an STP which describes the state's planned activities to achieve full and ongoing compliance with the federal HCBS settings regulations.

The Texas STP was approved by CMS on July 20, 2023. However, CMS allowed states additional time to complete outstanding Medicaid HCBS provider assessments, remediation, and validation through a corrective action plan (CAP) process. The Texas CAP, approved by CMS on October 6, 2023, allows the State additional time to complete onsite assessments, and publish an addendum to the STP to provide compliance counts for the following HCBS settings:

Employment services in the Community Living Assistance and Support Services (CLASS), Home and Community-based Services (HCS), and Texas Home Living (TxHmL) waiver programs, including prevocational services, employment assistance, and supported employment;

Residential settings in the HCS program, including three-person residences, four-person residences, and host home/companion care;

Residential settings in the STAR+PLUS HCBS program, including assisted living facilities and adult foster care; and

Individualized skills and socialization in the HCS, TxHmL, and Deaf Blind with Multiple Disabilities (DBMD) programs.

The CAP requires HHSC to aggregate compliance data for the HCBS settings listed above to be published as an addendum to the state's STP. HHSC has completed on-site assessments and compliance validations for required HCBS settings and compliance counts have been aggregated in an addendum to the STP, which can be found at: <https://www.hhs.texas.gov/providers/long-term-care-providers/long-term-care-provider-resources/home-community-based-services-hcbs>

### **Public Notice: Home and Community Based Services Waiver**

The Texas Health and Human Services Commission (HHSC) on June 11, 2025 submitted a request to the Centers for Medicare & Medicaid Services (CMS) to amend the Home and Community-based Services (HCS) waiver program authorized under §1915(c) of the Social Security Act. CMS has approved the HCS waiver application through August 31, 2028. The proposed effective date for the amendment is August 2, 2025.

This amendment proposes to make the following changes:

#### **Appendix B**

HHSC updated waiver year (WY) 2 through 5 to reflect an increase in the Point-in-Time (PIT) and unduplicated participants (Factor C).

#### **Appendix E**

In section E-1.n HHSC increased the Projected totals for Participant Direction in the table for WYs 2 through 5 to align with the updated Factor C increase.

#### **Appendix J**

HHSC revised Factor C and Point in time (PIT) calculations for the overall projected cost of waiver services (Factor D) and the overall projected cost of other Medicaid services furnished to waiver participants (D Prime (D')) for WYs 2 through 5. HHSC also updated projections for annual average per capita Medicaid costs for all non-waiver institutional services (Factor G) and other Medicaid costs for the institutional population (Factor G') since there was a change in the average length of stay as a result of the updated Factor C and PIT calculations. HHSC in J-2.b and J-2.c updated the narratives for Average Length of Stay, Factor D derivation, and Factor D' derivation.

The HCS waiver provides services and supports to individuals with intellectual disabilities who live in their own homes, in the home of a family member, or another community setting such as a three-person or four-person residence operated by an HCS program provider. Services and supports are intended to enhance quality of life, functional independence, and health and well-being in continued community-based living and to supplement, rather than replace, existing informal or formal supports and resources.

Current services in the HCS waiver include individualized skills and socialization, respite, employment readiness, supported employment, adaptive aids, audiology, occupational therapy, physical therapy, prescribed drugs, speech and language pathology, financial management services, support consultation, behavioral support, cognitive rehabilitation therapy, dental treatment, dietary services, employment assistance, minor home modifications, nursing, residential assistance, social work, supporting home living, and transition assistance services.

Per CMS guidance, a public notice of intent is not required for non-substantive waiver amendments such as the ones described herein.

To obtain a free copy of the proposed waiver amendment, ask questions or obtain additional information about the amendment, please contact Julyya Alvarez by U.S. mail, telephone, fax, or email at the addresses and numbers below. Notice to Public and to All Interested Mortgage Lenders Texas  
Department of Housing and Community Affairs Mortgage  
Credit Certificate Program

The Texas Department of Housing and Community Affairs (the "Department") intends to implement a Mortgage Credit Certificate Program (the "Program") to assist eligible very low, low, and moderate income first-time homebuyers with the purchase of a residence located within the State of Texas.

Under the Program, a first-time homebuyer who satisfies the eligibility requirements described herein may receive a federal income tax credit in an amount equal to the product of the certificate credit rate established under the Program and the interest paid or accrued by the homeowner during the taxable year on the remaining principal of the certified indebtedness amount incurred by the homeowner to acquire the principal residence of the homeowner; provided that, if the certificate credit rate established under the Program exceeds 20%, the amount of such credit allowed in any taxable year may not exceed \$2,000. In order to qualify to receive a mortgage credit certificate, the homebuyer must qualify for a conventional, FHA, VA, USDA or other home mortgage loan from a lending institution and must meet the other requirements of the Program.

The mortgage credit certificates will be issued to qualified mortgagors on a first-come, first-served basis by the Department, which will review applications from lending institutions and prospective mortgagors to determine compliance with the requirements of the Program and determine that mortgage credit certificates remain available under the Program. No mortgage credit certificates will be issued prior to ninety (90) days from the date of publication of this notice or after the date that all of the credit certificate amount has been allocated to homebuyers, and in no event will mortgage credit certificates be issued later than the date permitted by federal tax law.

In order to satisfy the eligibility requirements for a mortgage credit certificate under the Program: (a) the prospective residence must be a single-family residence located within the State of Texas that can be reasonably expected to become the principal residence of the mortgagor within a reasonable period of time after the financing is provided; (b) the prospective homebuyer's current income must not exceed, (1) for families of three or more persons, 115% (140% in certain targeted areas or in certain cases permitted under applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code")) of the area median income; and (2) for individuals and families of two persons, 100% (120% in certain targeted areas or in certain cases permitted under applicable provisions of the Code) of the area median income; (c) the prospective homebuyer must not have owned a home as a principal residence during the past three years (except in the case of certain targeted area residences or in certain cases permitted under applicable provisions of the Code); (d) the acquisition cost of the residence must not exceed 90% (110%, in the case of certain targeted area residences or in certain cases permitted under applicable provisions of the Code) of the average area purchase price applicable to the residence; and (e) no part of the proceeds of the qualified indebtedness may be used to acquire or replace an existing mortgage (except in certain cases permitted under applicable provisions of the Code). To obtain additional information on the Program, including the boundaries of current targeted areas, as well as the current income and purchase price limits (which are subject to revision and adjustment from time to time by the Department pursuant to changes in applicable federal law and Department policy), please contact Lisa Johnson at the Texas Department of Housing and Community Affairs, 221 East 11th Street, Austin, Texas 78701-2410; telephone (512) 475-3993; or visit our website <https://thetexashomebuyerprogram.com>.

The Department intends to maintain a list of single-family mortgage lenders that will participate in the Program by making loans to qualified holders of these mortgage credit certificates. Any lender interested in appearing on this list or in obtaining additional information regarding the Program should contact Lisa Johnson at the Texas Department of Housing and Community Affairs, 221 East 11th Street, Austin, Texas 78701-2410; (512) 475-3993. The Department may schedule a meeting with lenders to discuss in greater detail the requirements of the Program.

This notice is published in satisfaction of the requirements of Section 25 of the Code and Treasury Regulation Sections 1.25-3T(j)(4) and 1.25-7T promulgated thereunder regarding the public notices prerequisite to the issuance of mortgage credit certificates and to maintaining a list of participating lenders.

When paying a prize of \$600 or more, the Texas Lottery shall file the appropriate income reporting form with the Internal Revenue Service (IRS) and shall withhold federal income tax at a rate set by the IRS if required. In the event that the claim is not validated by the Texas Lottery, the claim shall be denied and the claimant shall be notified promptly.

C. As an alternative method of claiming a "CRAZY 8s" Scratch Ticket Game prize, the claimant may submit the signed winning Scratch Ticket and a thoroughly completed claim form via mail. 4. delinquent in child support payments in the amount determined by a court or a Title IV-D agency under Chapter 231, Family Code.

2.0 Determination of Prize Winners. The determination of prize winners is subject to the general Scratch Ticket validation requirements set forth in Texas Lottery Rule 401.302, Scratch Ticket Game Rules, these Game Procedures, and the requirements set out on the back of each Scratch Ticket. A prize winner in the "CASHWORD" Scratch Ticket Game is determined once the latex on the Scratch Ticket is scratched off to expose the Play Symbols as indicated per the game instructions from the total of one hundred forty-one (141) Play Symbols. The player completely scratches all of the YOUR 20 LETTERS Play Symbols. The player then scratches all the letters found in the CASHWORD puzzle that exactly match the YOUR 20 LETTERS Play Symbols. Every lettered square within an unbroken horizontal (left to right) or vertical (top to bottom) sequence must be matched with the YOUR 20 LETTERS Play Symbols to be considered a complete WORD. Words revealed in a diagonal sequence are not considered valid WORDS. Words within WORDS are not eligible for a prize.
