Combined Notice of Public Meeting and Notice of Application and Preliminary Decision for TPDES Permit for Municipal Wastewater New Permit No. WQ0016624001

APPLICATION AND PRELIMINARY DECISION. Sanger Laguna Azure LLC and James N. Horn, 2101 Cedar Springs Road, Suite 700, Dallas, Texas 75201, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016624001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 950,000 gallons per day. TCEQ received this application on September 16, 2024.

The facility will be located approximately 0.77 miles northwest of the intersection of Farm-to-Market Road 2153 and Farm-to-Market Road 2164, near the City of Sanger, Denton County, Texas 76266. The treated effluent will be discharged to an unnamed tributary, thence to another unnamed tributary, thence to Clear Creek, thence to Lewisville Lake in Segment No. 0823 of the Trinity River Basin. The unclassified receiving water uses are minimal aquatic life use for the first unnamed tributary, limited aquatic life use for the second unnamed tributary, and high aquatic life use for Clear Creek. The designated uses for Segment No. 0823 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality

is expected in Clear Creek, which has been identified as having high aquatic life uses. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Sanger Public Library, 501 Bolivar Street, Sanger, in Denton County, Texas. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

Notice of Intent to Perform Removal Action at the (Tucker Oil Refinery/Clinton Manges Oil & Refining Company) Proposed State Superfund Site, (Tucker, Anderson County, Texas)

The executive director of the Texas Commission on Environmental Quality (TCEQ or commission) hereby issues public notice of intent to perform a removal action, as provided by Texas Health and Safety Code (THSC) §361.133, for the Tucker Oil Refinery/Clinton Manges Oil &

Refining Company state Superfund site (the site). The site, including all land, structures, appurtenances, and other improvements, occupies approximately 9.249 acres located between United States Highway 79 (US 79) and the Union Pacific Railroad in Tucker, Anderson County, Texas, approximately 1/4 mile north of the intersection of US 79 and County Road 2133 and approximately nine miles west of Palestine. An additional 2.2 acres of the site are located directly across US 79 to the west. The site also includes any areas where hazardous substances have come to be located as a result, either directly or indirectly of releases of hazardous substances from the site.

The site contains an inactive and dismantled oil refinery and previously was the location of operations including oil refining and scrap metal salvage that took place at the site from 1940 through 1995. The results of sampling events conducted at the site indicate that benzene-contaminated soils and a shallow vinyl chloride groundwater plume are present on-site, and a deeper 1,2-dichloroethane groundwater plume extends off-site. There are also light non-aqueous phase liquids present in the shallow and deeper groundwater-bearing units.

The site was proposed for listing on the state Superfund registry on November 3, 2000 (25 TexReg 11179), pursuant to THSC, Chapter 361, Subchapter F. In order to achieve long-term protectiveness of nearby residential and agricultural property, removal of soils containing hazardous substances is appropriate. The cleanup or removal can be completed without extensive investigation and planning and will achieve a significant cost reduction for the site.

Records

A portion of the record for this site is available for review during regular business hours at the Palestine Public Library, at 502 North Queen Street, Palestine, Texas 75801, phone number (903) 729-4121.

Notice of Public Meeting New Permit No. WQ0016503001

APPLICATION. South Central Water Company, P.O. Box 570177, Houston, Texas 77257, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016503001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 600,000 gallons per day. TCEQ received this application on March 11, 2024.

The facility will be located approximately 0.36 miles northwest of the intersection of North Drive and Northwest Carlos G. Parker Boulevard, in Williamson County, Texas 76574. The treated effluent will be discharged to **Turkey Creek, thence to Brushy Creek in Segment No. 1244 of the Brazos River Basin.** The unclassified receiving water use is limited aquatic life use for Turkey Creek. The designated uses for Segment No. 1244 are primary contact recreation, public water supply, aquifer protection, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in water bodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. The Texas Health and Human Services Commission (HHSC) announces its intent to submit amendment, transmittal number 25-0028, to the Texas State Plan for Medical Assistance under Title XIX of the Social Security Act. The proposed amendment is effective September 1, 2025.

The purpose of the amendment is to implement the Patient Driven Payment Model for Long Term Care (PDPM LTC) rate methodology and payment rates for Nursing Facilities (NF). HHSC is making these changes in accordance with the 2024-25 General Appropriations Act, House Bill 1, 88th Texas Legislature, Regular Session, 2023 (Article II, HHSC, Rider 25), which provides appropriations for HHSC to develop and implement a Texas version of the PDPM reimbursement methodology to improve care in long-term stay nursing facility services in the Medicaid program.

The proposal also implements General Appropriations Act (GAA), Senate Bill (S.B) 1, 89th Legislature, Regular Session, 2025 (Article II, HHSC, Rider 25), and S.B. 457, 89th Legislature, Regular Session, 2025, which provides additional appropriations to fund dietary and administrative costs for nursing facilities. The proposal modifies reimbursement methodology to support the implementation of Rider 25 and S.B. 457. The proposal also discontinues the Direct Care Staff Enhancement program and direct care spending requirements and

implements the annual patient care expense ratio in accordance with S.B. 457. The proposed amendment also deletes information that is no longer applicable to the NF program from the state plan pages. The proposed amendment corrects inconsistencies in page numbering and improves the clarity of the NF section. The proposed amendment is effective September 1, 2025.

The proposed amendment is estimated to result in an annual aggregate fee-for-service expenditure of \$4,461,453 for federal fiscal year 2025, consisting of \$2,676,872 in federal funds and \$1,784,581 in state general revenue. Texas Higher Education Coordinating Board

Notice of Opportunity for Informal Comment on Proposed Changes to Off-Campus Education Policy and Approvals

The Texas Higher Education Coordinating Board (Coordinating Board) seeks informal input from public institutions of higher education on proposed policy and approval process changes related to delivery of off-campus education. A summary of the proposed changes can be found below. Formal proposed rules will be posted in the *Texas Register* after initial feedback is collected.

The intent of the new rules is to consolidate processes related to off-campus approvals and notifications, reduce the volume of notifications and approval required, and require similar approvals and notifications regardless of institution type unless otherwise mandated by statute.

For community and technical colleges, off-campus is anything outside of the college's service area. For universities and health-related institutions, off-campus is anything away from the main campus.

Proposed changes to notification of off-campus educational sites include the following:

For teaching sites and centers at public institutions, the institution must notify the Coordinating Board of the site's location (and name if applicable) prior to delivery of a course, certificate, or a portion of a degree program totaling less than 50%, if the site is not yet listed in the Coordinating Board's distance education inventory.

For establishment of branch campuses at public junior colleges, as permitted by Texas Education Code 130.251, the board of trustees of a junior college district may establish and operate branch campuses within the junior college district's service area. Courses and programs offered at a branch campus within the institution's junior college district are not considered off-campus.

For establishment of branch campuses at universities and health-related institutions not less than three years prior to enrollment of students at a formal branch campus, institutions would provide a report to the Coordinating Board outlining the date the institution intends to enroll students under the branch campus, the off-campus institutional accreditation timeline, the proposed programs to be offered, an assessment of unmet labor market need and any potential duplication of programs, and if applicable, a summary of programs and enrollments at the site where the institution intends to open a branch campus.

Notification of off-campus educational sites would not be required for internship sites or courses.

Texas State Technical College would continue to request approval of off-campus programs and courses in accordance with Texas Education Code, Chapter 135, and Texas Administrative Code, Chapter 11, of Coordinating Board rules.

Proposed changes to approval of programs at off-campus locations:

The definition of an off-campus program would change slightly from more than 50% of a program offered at the location to 50% or more of the program offered at the location.

Each spring, institutions would submit an off-campus instructional plan (OCIP) to the Higher Education Regional Councils (HERCs) for an annual review of all lower and upper division off-campus programs to be delivered in the upcoming academic year. The HERCs would convene to review and attempt to address any concerns about the proposed program locations. Any concerns that cannot be resolved by the HERCs will be submitted to the Coordinating Board for review. Once the HERC review is completed, the HERC chairs will submit all OCIPs to the Coordinating Board with a recommendation for approval or denial to the Assistant Commissioner. Once an approval decision is completed, the institution will be notified. If the institution disagrees with the decision, it may be appealed to the Commissioner of Higher Education. This change is designed to consolidate and streamline approvals for an upcoming academic year, without the need to submit additional individual requests to the Coordinating Board.

If an institution needs to close a site or program in the middle of the academic year, they shall notify the Coordinating Board and the institution's OCIP will be updated accordingly.

A list of off-campus sites and programs will be posted and maintained on the Coordinating Board website.

Approval of "Employer-Requested Off-Campus Career and Technical Education Programs" will follow required Texas Education Code, §51.981.

Proposed changes to approval of off-campus courses, certificates or less than 50% of a degree program:

No prior approval or notification required for individual courses, certificates, or less than 50% of a degree program beyond notification of the site, as described above, with the exception of courses under Texas Education Code 130.006, which shall be included in a public junior college's OCIP.

Written comments about the proposed changes can be sent to Elizabeth Mayer, Assistant Commissioner for Academic and Health Affairs, Texas Higher Education Coordinating Board, P.O. Box 12788, Austin, Texas 78711, or via email to ahacomment@highered.texas.gov. Comments will be accepted until 5:00 p.m., July 24, 2025.

Attesting to the Proper Use of Texas Universal Service Fund

Notice is given to the public of the 2025 certification proceeding initiated by the Public Utility Commission of Texas (commission) for state certification of common carriers as eligible telecommunications carriers to receive federal universal service funds.

Notice is given to the public of the 2025 compliance proceeding initiated by the Public Utility Commission of Texas (commission) for eligible telecommunications providers (ETP) and resale eligible telecommunications providers (RETP) to attest to the proper use of Texas universal service funds (TUSF).

Project Title and Number: Designation of Common Carriers as Eligible Telecommunications Carriers to Receive Federal Universal Service Funds. Project Number 24481.

Project Title and Number: Annual Compliance Affidavit Attesting to Proper Use of Texas Universal Service Fund Pursuant to PURA § 56.030. Project Number 32567.

Under 47 Code of Federal Regulations § 54.314, the commission annually certifies that all federal high-cost support provided to carriers in Texas was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. The commission must file the certification with the Federal Communications Commission and the Universal Service Administrative Company by October 1 each year in order for ETCs to receive federal high-cost support. Without certification, carriers will not receive federal high-cost support.

The commission initiated this proceeding under Public Utility Regulatory Act (PURA) § 56.030 and 16 Texas Administrative Code (TAC) §26.417 and §26.419. PURA § 56.030 requires that on or before September 1 of each year, a telecommunications provider that receives disbursements from the TUSF file with the commission an affidavit certifying that the telecommunications provider complies with the requirements for receiving money from the TUSF and requirements regarding the use of money from the universal service fund program for which the telecommunications provider receives disbursements.

The certification requirement applies to all incumbent local exchange carriers and competitive eligible telecommunications carriers seeking federal high-cost support. Under 16 Texas Administrative Code §26.418(k), each carrier must provide the commission with a sworn affidavit certifying that the carrier complies with federal requirements for receiving federal high-cost support. All carriers in Texas requesting certification by the commission must submit an affidavit by September 2, 2025.

This certification requirement applies to every ETP and RETP receiving support from the TUSF. In accordance with PURA § 56.030 and 16 TAC §26.417 and §26.419, each ETP and RETP receiving TUSF support must file with the commission a sworn affidavit (using the commission prescribed form) certifying that the provider complies with the requirements for receiving money from the TUSF and the requirements regarding the use of money from each TUSF program for which the provider receives funds. All carriers in Texas requesting certification by the commission must submit an affidavit by September 2, 2025.

Carriers seeking to be certified may contact the commission by mail at P.O. Box 13326, Austin, Texas 78711-3326, or by phone at (512) 936-7120 or toll-free at (888) 782-8477.
