Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 *Federal Register* pp. 1439 - 1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 26. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of June 29, 2026 to July 3, 2026. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§30.20(f), 30.30(h), and 30.40(e), the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, July 10, 2026.

The public comment period for this project will close at 5:00 p.m. on Sunday, August 9, 2026.

Federal Agency Activities:

Applicant: U.S. Coast Guard

Location: The project site is located in the Laguna Madre, at the United States Coast Guard (USCG) Station at 1 Wallace Road, South Padre Island, Cameron County, Texas.

Latitude and Longitude: 26.074442, -97.164078

Project Description: The applicant proposes to rebuild and construct new facilities and waterfront infrastructure on the existing site to support future operations of the USCG based at the Station. The Project would occur within an approximate 9-acre area consisting of developed or vacant land areas and approximately 1.5 acres of marine footprint. The Project includes construction of waterfront infrastructure to accommodate the full complement of assigned and jointly operated vessels, including covered mooring slips, a boat ramp sized for vessels up to 45 ft., and dedicated boat maintenance and storage facilities. Shore-side facilities will include operational and administrative space for Station, ANT, Sector Corpus Christi, Deployable Specialized Forces, and co-located CBP partner agency personnel, a JOC, personnel housing and all ancillary required facilities, and supporting site infrastructure including security fencing, vehicle parking, and maintained access to the collocated aerostat surveillance pad. In-water structures to be demolished include a pier on the north side of the marina, and three piers within the marina. Approximately 0.036-acre of fill would be placed within wetland E2SS3 for the construction of an interior facility road and approximately 558 square feet of rock riprap would be replaced along the shoreline at wetland E2SS3. Two piers would be constructed within the existing basin. The south pier (Pier 1) would be approximately 152 feet by 10 feet and would be supported by 14, 18-inch square piles. The north pier (Pier 2) would be approximately 202 feet by 10 feet and would be supported by 14, 18-inch square piles. A 20-foot by 150-foot boat ramp (3,750 square feet [sq ft]) would be constructed on the north side of the property for launching and recovery of vessels up to 45 feet in length. A temporary sheet pile cofferdam would be used for dewatering during construction of the boat ramp. Approximately 147 feet of concrete sheet pile would support the north side of the boat ramp with one 42-inch concrete pile for mooring and approximately 106 feet of concrete sheet pile on the south side of the boat ramp. Approximately 462 sq ft of rock riprap would be placed for a stormwater outfall on the north side of the proposed boat ramp and would be bordered by approximately 68 feet of concrete sheet piles. Approximately 2,750 cubic yards (CY) of dredge material would be produced from an approximate 0.4-acre dredge footprint to a maximum depth of -12 feet mean lower low water (MLLW). Dredge material would be placed at the federally approved PA 2 placement area or within on-site uplands. Covered mooring slips would be placed north and south of Pier 1 and would be approximately 10 feet by 10 feet and supported by 3, 18-inch square piles (16 in total). Construction is estimated to take approximately 2.5 years.

Type of Application: U.S. Army Corps of Engineers permit application #SWG-2025-00641. This application will be reviewed pursuant Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act of 1899.

CMP Project No: 26-1173-F2

Applicant: Texas Parks and Wildlife Department

Location: The General Permit (GP) will be valid within navigable waters of the U.S. within the Galveston District Area of Operations boundaries, excluding waters located in Louisiana and the Gulf of America.

Project Description: This RGP would authorize the work and placement of structures in navigable waters of the US for the construction, maintenance, and repair of artificial reefs as part of work conducted by the Texas Parks and Wildlife Department (TPWD). For authorization under the RGP, TPWD must submit a Preconstruction Notification (PCN) for project-specific verification.

When considering an application for an artificial reef, as defined in 33 CFR 322.2(g), the Corps reviews TPWD's provisions for siting, constructing, monitoring, operating, maintaining, and managing the proposed artificial reef and determines if those provisions are consistent with the following standards: 1) the enhancement of fishery resources to the maximum extent practicable; 2) the facilitation of access and utilization by United States recreational and commercial fishermen; 3) the minimization of conflicts among competing uses of the navigable waters or waters overlying the outer continental shelf and of the resources in such waters; 4) the minimization of environmental risks and risks to personal health and property; 5) generally accepted principles of international law; and 6) the prevention of any unreasonable obstructions to navigation.

RGPs are permits issued by a district or division engineer on a regional basis to streamline the authorization of activities that are substantially similar in nature and cause only minimal individual and cumulative environmental impacts. The purpose of this RGP is to expedite the Corps' review of requests for authorization from the TPWD to construct, maintain, and repair artificial reefs. This RGP was last reissued in August 6, 2021 and expires on August 6, 2026. The Corps proposes only to modify the description of required components of the preconstruction notification to provide clarity.

Type of Application: U.S. Army Corps of Engineers permit application #SWG-1994-00026. This application will be reviewed pursuant Section 10 of the Rivers and Harbors Act of 1899.

CMP Project No: 26-1171-F2

For both the virtual public hearing and in-person option, members of the public may call (432) 251-0066 to provide verbal testimony beginning at 5:00 p.m. on Wednesday, July 29, 2026 through 11:59 p.m. on Thursday, August 13, 2026. Formal written comments may also be provided by mail to TxDOT, Attn: Reeves County RMA, 3901 E. Highway 80, Odessa, Texas 79761 or by email to gabriel.ramirez@txdot.gov. Please include "Reeves County RMA" in the subject line. **All comments must be received on or before Thursday, August 13, 2026**, to be included as part of the official record.

Reeves County filed a petition requesting authorization from the Texas Transportation Commission to form the Reeves County RMA. As proposed, the Reeves County RMA would encompass the boundaries of Reeves County and would be governed by a board of directors consisting of five members. Two of the five board members would be appointed by the Reeves County Commissioners Court, one of the five

board members would be appointed by the Pecos City Council, and one of the five board members would be appointed by the Pecos Economic Development Corporation. The fifth member, the presiding officer, would be appointed by the Governor of Texas.

As proposed, the Reeves County RMA would support TxDOT projects designed to improve safety and mobility along US 285 from just north of Pecos, Texas to just south of the New Mexico state line. The projects would include widening US 285 from a two-lane highway to four-lane divided highway. The projects also include reconstructing the existing at-grade intersections at RM 652 and at SH 302 to grade-separated interchanges.

The Reeves County RMA would also support the proposed TxDOT project to construct a relief route around the east side of Pecos from US 285 north of Pecos to US 285 south of Pecos. The relief route would improve long-term mobility and connectivity as well as safety on US 285 for local and through traffic. The proposed relief route would generally consist of a new four-lane divided highway, including two main lanes and a one-way frontage road in each direction, separated by a grassy median, for a length of approximately 10 miles. The project would also include shared-use paths and new interchanges at major intersections.

The Reeves County RMA would also consider truck parking as a fundamental need for freight and logistics operations and, therefore, support development of Pecos Freight Village (PFV). Pecos Freight Village has been designed to enhance road safety, bolster economic competitiveness, and improve supply chain efficiency in the west Texas region. Providing a range of parking options and amenities tailored to the specific needs of truck drivers would address these concerns. Positioned strategically within a major transportation corridor at the intersection of US 285 and I-20, Pecos Freight Village would facilitate the efficient movement of goods. It would also play a pivotal role in increasing safety for the dense vehicle traffic associated with the nearby oil and gas industry.

The project materials are written in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to review the project materials or submit information, please contact the Odessa District's public information officer at (432) 498-4746 no later than 4:00 p.m. CT, at least three business days before the date on which you would like to review the project materials or submit information. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

If you have general questions regarding the proposed Reeves County RMA, please contact Gabriel Ramirez, P.E., director of transportation planning and development, at (432) 498-4645 or gabriel.ramirez@txdot.gov.
