Combined Notice of Public Meeting and Notice of Application and Preliminary Decision (NAPD) for TPDES Permit for Municipal Wastewater Renewal: Revised Permit No. WQ0014477001

APPLICATION AND PRELIMINARY DECISION. City of Liberty Hill, 926 Loop 332, Liberty Hill, Texas 78642, has applied to the Texas Commission on Environmental Quality (TCEQ) for a renewal of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0014477001, which authorizes the discharge of treated domestic wastewater at an annual average flow not to exceed 4,000,000 gallons per day. TCEQ received this application on September 5, 2018.

The facility is located approximately 8,800 feet southeast of the intersection of U.S. Highway 29 and U.S. Highway 183, in Williamson County, Texas 78641. The treated effluent is discharged to South Fork San Gabriel River in Segment No. 1250 of the Brazos River Basin. The designated uses for Segment No. 1250 are primary contact recreation, public water supply, aquifer protection, and high aquatic life use. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at **City of Liberty Hill City Hall, 926 Loop 332, Liberty Hill, Texas.**

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments about this application. The TCEQ will hold a public meeting on this application because it was requested by a local legislator.

The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the

Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for

reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

Department of State Health Services

Abusable Volatile Chemical Penalty Matrix

Chapter 485 of the Texas Health and Safety Code (Code) authorizes the Department of State Health Services (department) to regulate abusable volatile chemicals (AVC) in this state. The regulatory goals are to protect human health and safety, to ensure standard practices, and to protect minors from AVC. To achieve these goals, the department performs routine inspections, complaint investigations, and other consumer protection activities. The department has rulemaking authority under §§485.002 and 485.012(b) of the Code to administer the Chapter, including the authority to adopt rules necessary to comply with labeling requirements established under the Federal Hazardous Substances Act and establish permit application fees, as well as standards for permit issuance and renewal. The department's AVC rules are promulgated in Texas Administrative Code (TAC), Title 25, Part 1, Chapter 205, Subchapter D, Inhalant Abuse. Additionally, the department has the authority under §485.101 of the Code to prescribe and impose administrative penalties to enforce violations of Chapter 485 of the Code and the AVC rules.

The department publishes the AVC Penalty Matrix (Matrix) to inform the public and the regulated AVC retail establishments about the department's compliance policies. The penalties set forth in the Matrix are created to promote compliance with the AVC statute and rules, promote public confidence in the retail sales AVC industry, and deter conduct detrimental to the health and safety of minors who may attempt to buy AVC. The Matrix promotes transparency in the department's compliance efforts to protect Texas consumers, and provides notice of these consumer protection standards to the public and the regulated AVC retail businesses.

As part of the department's commitment to the protection of minors from AVC in Texas, the department publishes the Matrix to encourage consistent, uniform, and fair assessment of penalties for violations of the AVC rules promulgated in Texas Administrative Code, Title 25, Part 1, Chapter 205, Subchapter D, Inhalant Abuse. The list of violations in the Matrix provides a corresponding citation to the appropriate section of the AVC rules for each violation. The actual penalty to be assessed in a particular compliance case remains within the discretion of the department.

Under 25 TAC §205.64(d), the department shall consider the following when assessing the amount of a penalty:

- (1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of the violation;
- (2) the threat to health or safety caused by the violation;
- (3) the history of previous violations;
- (4) the amount necessary to deter a future violation;
- (5) whether the violator demonstrated good faith, including, when applicable, whether the violator made good faith efforts to correct the violation; and
- (6) any other matter that justice may require. Furthermore, 25 TAC §205.64(e) provides for three violation severity levels: Significant Violation - Severity Level I, Serious Violation - Severity Level II, and Critical Violation - Severity Level III. These three violation severity levels are reflected accordingly in the Matrix.

-Significant violation - Severity Level I includes violations that are of more than minor significance and, if left uncorrected, could lead to more serious circumstances.

-Serious violation - Severity Level II includes violations that are significant and which, if not corrected, could threaten public health and safety.

-Critical Violation - Severity Level III includes violations that are most significant and have a direct negative impact on public health and safety.

The department may offer to settle disputed claims as deemed appropriate, through various means including, but not limited to, Informal Conference, reduced penalty amounts, permit sanctions, or other appropriate lawful means, subject to approval of the Commissioner, on a case-by-case basis. All decisions made by the department related to violations of the AVC rules are based on current circumstances, including extant information and laws.

The proposed Matrix may be reviewed and revised from time to time. This Matrix shall be effective immediately upon publication in the *Texas Register* and shall supersede the current department procedures for assessing administrative penalties for violations of the AVC rules.

In granting termination of licenses, the Department has determined that the licensee has complied with the applicable decommissioning requirements of 25 TAC, Chapter 289. In granting exemptions to the licensing requirements of Chapter 289, the Department has determined that the exemption is not prohibited by law and will not result in a significant risk to public health and safety and the environment.

 Licensing Actions for Radioactive Materials

During the second half of June, 2020, the Department of State Health Services (Department) has taken actions regarding Licenses for the possession and use of radioactive materials as listed in the tables (in alphabetical order by location). The subheading "Location" indicates the city in which the radioactive material may be possessed and/or used. The location listing "Throughout TX [Texas]" indicates that the radioactive material may be used on a temporary basis at locations throughout the state.

In issuing new licenses and amending and renewing existing licenses, the Department's Business Filing and Verification Section has determined that the applicant has complied with the licensing requirements in Title 25 Texas Administrative Code (TAC), Chapter 289, for the noted action. In granting termination of licenses, the Department has determined that the licensee has complied with the applicable decommissioning requirements of 25 TAC, Chapter 289. In granting exemptions to the licensing requirements of Chapter 289, the Department has determined that the exemption is not prohibited by law and will not result in a significant risk to public health and safety and the environment.

A person affected by the actions published in this notice may request a hearing within 30 days of the publication date. A "person affected" is defined as a person who demonstrates that the person has suffered or will suffer actual injury or economic damage and, if the person is not a local government, is (a) a resident of a county, or a county adjacent to the county, in which radioactive material is or will be located, or (b) doing business or has a legal interest in land in the county or adjacent county. 25 TAC §289.205(b)(15); Health and Safety Code §401.003(15). Requests must be made in writing and should contain the words "hearing request," the name and address of the person affected by the agency action, the name and license number of the entity that is the subject of the hearing request, a brief statement of how the person is affected by the action what the requestor seeks as the outcome of the hearing, and the name and address of the attorney if the requestor is represented by an attorney. Send hearing requests by mail to: Hearing Request, Radiation Material Licensing, MC 2835, PO Box 149347, Austin, Texas 78714-9347, or by fax to: 512-834-6690, or by e-mail to: RAMlicensing@dshs.texas.gov.

Texas Department of Housing and Community Affairs

Fourth Amendment to 2020-1 Multifamily Direct Loan Annual Notice of Funding Availability

I. Sources of Multifamily Direct Loan Funds.

Multifamily Direct Loan funds are made available in this Annual Notice of Funding Availability through program income generated from prior year HOME allocations, de-obligated funds from prior year HOME allocations, the 2019 Grant Year HOME allocation, and the 2018 and 2019 Grant Year National Housing Trust Fund (NHTF) allocations. The Department may amend this NOFA or the Department may release a new NOFA upon receiving additional de-obligated funds from HOME allocations, or upon receiving new funds from the 2020 HOME or NHTF allocations from HUD. These funds have been programmed for multifamily activities including acquisition, refinance, and preservation of affordable housing involving new construction, reconstruction and/or rehabilitation.

II. Notice of Funding Availability (NOFA).

The Texas Department of Housing and Community Affairs (the Department) announces the availability of up to \$26,356,025.20 in Multifamily Direct Loan funding for the development of affordable multifamily rental housing for low-income Texans.

Of that amount, up to \$12,509,857.20 will be available for applications proposing Supportive Housing in accordance with 10 TAC §11.1(d)(122) and §11.302(g)(4) of the 2020 Qualified Allocation Plan (QAP) or applications that commit to setting aside units for extremely low-income households as required by 10 TAC §13.4(a)(1)(A)(ii). The remaining funds will be available under the General set-aside for applications proposing eligible activities in non-Participating Jurisdictions.

At the Board meeting on June 25, 2020, the Department approved the Fourth Amendment to 2020-1 Multifamily Direct Loan Annual NOFA, whereby the \$4,733,439 in HOME funds under the Community Housing Development Organization (CHDO) set-aside were reallocated to the General set-aside. Funds under the General set-aside will be available on a statewide basis through August 31, 2020 (if sufficient funds remain). At the same Board meeting, the Department also approved that, with Executive Director approval, future amendments may be made as needed in order to meet the upcoming federal commitment deadline for NHTF without Board approval.

The Multifamily Direct Loan program provides loans to for-profit and nonprofit entities to develop affordable housing for low-income Texans qualified earning 80 percent or less of the applicable Area Median Family Income. All funding is currently available on a statewide basis within each set-aside until August, 31, 2020 (if sufficient funds remain).

III. Application Deadline and Availability.

Based on the availability of funds, Applications may be accepted until 5 p.m. Austin local time on August 31, 2020. The "Amended 2020-1 Multifamily Direct Loan Annual NOFA" is posted on the Department's website: <http://www.tdhca.state.tx.us/multifamily/nofas-rules.htm>. Subscribers to the Department's LISTSERV will receive notification that the Fourth Amendment to the NOFA is posted. Subscription to the Department's LISTSERV is available at <http://mail-list.tdhca.state.tx.us/list/subscribe.html?lui=f9mu0g2g&mContainer=2&mOwner=G382s2w2r2p>.
