Tenaha Wood Legal Notice

Notice of Intent to Perform a Removal Action at the Tenaha Wood Treating Proposed State Superfund Site, (Tenaha, Shelby County, Texas)

The executive director of the Texas Commission on Environmental Quality (TCEQ) hereby issues public notice of intent to perform a removal action, in accordance with Texas Health and Safety Code (THSC), §361.133(i), for the Tenaha Wood Treating state Superfund site (the site).

The site comprises approximately six acres and is located south of the city limits of Tenaha, at 275 County Road 4382 in Shelby County, Texas. The site also includes any areas where hazardous substances have come to be located as either a direct or indirect result of releases of hazardous substances from the site. The site is fenced on all sides and is improved with a single-family residence on the southeast portion of the site.

The site was proposed for listing on the state Superfund registry in the December 2, 2005 issue of the *Texas Register* (30 TexReg 8213), pursuant to THSC, Chapter 361, Subchapter F.

The site is a former wood treating facility that operated from approximately 1980 to 1985 using both pentachlorophenol (PCP) and chromated copper arsenate. Leaks and spills of wood preservatives, as well as improper waste management practices, resulted in the release of arsenic, chromium, PCP, and dioxins into the environment. Arsenic, chromium, PCP, and dioxins are hazardous substances listed in 40 Code of Federal Regulations §302.4 and, therefore, are hazardous substances under the Texas Solid Waste Disposal Act (THSC, Chapter 361).

The removal action will consist of necessary and appropriate measures to mitigate releases of hazardous substances to the environment, including the removal and proper disposal of contaminated soil that is an ongoing source of contamination to the environment. This removal action is appropriate to protect human health and the environment, can be completed without extensive investigation and planning, and will achieve a significant cost reduction for the site.

TCEQ has established a site record repository, accessible during business hours, at the at the Fannie Brown Booth Memorial Library, 619 Tenaha Street, Center, Texas 75935, telephone (936) 598-5522. Requests to obtain copies of TCEQ's public records concerning the site may be submitted to the Central File Room through e-mail, at cfrreq@tceq.texas.gov. TCEQ Central File Room electronic records are also accessible online, at <https://www.tceq.texas.gov/agency/data/records-services>. Non-electronic records can be viewed at the TCEQ Central Viewing Area by appointment arranged via e-mail at cfrreq@tceq.texas.gov. TRD-202503737

Public Notice

The Texas Health and Human Services Commission (HHSC) is submitting a request to the Centers for Medicare & Medicaid Services (CMS) to amend the waiver application for the Deaf Blind with Multiple Disabilities (DBMD) program. HHSC administers the DBMD Program under the authority of Section 1915(c) of the Social Security Act. CMS has approved the DBMD waiver application through February 29, 2028. The proposed effective date for this amendment is March 15, 2026.

The amendment request proposes to make changes to Appendix C, D, and I of the waiver application to update Texas Administrative Code (TAC) references and clarify language throughout to align with ex-

isting TAC. Additional changes were made to the formal monitoring frequency for program providers and Financial Monitoring Services Agencies (FMSAs) following a determination of acceptable compliance during an intermittent monitoring review. HHSC updated performance measure language to align with the updated monitoring frequency.

The request proposes to amend Appendix I of the waiver application based on the 2026-27 General Appropriations Act, Senate Bill 1, 89th Legislature, Regular Session, 2025, (Article II, HHSC, Rider 29) to include HHSC policies on the bypass and claims matching process during disasters or temporary circumstances that may disrupt the delivery of services but are out of the provider's or FMSAs control. HHSC also clarified existing Electronic Visit Verification (EVV) policies.

Appendix C

For all DBMD services except prescribed drugs, HHSC added the language about intermittent monitoring reviews for the home and community support services agency provider type in the Frequency of Verification section:

"If the provider achieves an acceptable level of compliance during the intermittent monitoring, contracts staff will conduct the next formal monitoring within two years."

For DBMD services available through the consumer directed services option, HHSC added the following FMSA intermittent monitoring language to the consumer directed services (CDS) provider type in the Frequency of Verification section:

"If the FMSA achieves an acceptable level of compliance during the intermittent monitoring, contracts staff will conduct the next formal monitoring within three years".

HHSC as applicable updated the term "objectives" to "outcomes" and updated the term "individual" to "employer".

HHSC as applicable, updated TAC referencing §260.203 to §260.205

HHSC for financial management services updated the term "individual" to "employer"

HHSC updated the individualized skills and socialization service definition, to remove "and implementation plan" and add "individual program."

HHSC added language to clarify that "supported employment" may not be provided at the same time as employment assistance and deleted employment assistance from the list of services since the section is about employment assistance.

HHSC added the following language for the transition assistance service in the Frequency of Verification section:

"Contracts staff must conduct an intermittent monitoring for providers that do not meet an acceptable compliance level during formal monitoring reviews. If the provider achieves an acceptable level of compliance during the intermittent monitoring, contracts staff will conduct the next formal monitoring within two years."

In the Quality Improvement section, HHSC replaced the following language to align with policy: "provider agreement/contract has been awarded" with "initial monitoring has been completed".

HHSC deleted the following language in the Quality Improvement: Methods for Discovery: Qualified Providers section to align with current policy: HHSC Contract Oversight and Support administers the HHSC System of Contract Operation and Reporting. The HHSC System of Contract Operation and Reporting is a custom-developed Health and Human Service Enterprise application with a consolidated database for contract information and reporting. On a monthly basis, HHSC

Contracts staff enter the complaint intake, complaint investigation findings, and contract and fiscal compliance monitoring results into the HHSC System of Contract Operation and Reporting. Contract Oversight and Support also utilizes the HHSC System of Contract Operation and Reporting to enter information pertaining to contract actions and sanctions. Through the HHSC System of Contract Operation and Reporting features, information pertaining to contract expenditures, compliance, and overall history is available for analysis, trending and reporting by the Contract Oversight and Support unit.

Appendix D:

To align with policy, HHSC revised language in the Quality Improvement: Methods for Remediation/Fixing Individual Problems: Qualified Providers section. New language reads as "If, during a contract monitoring review, a provider is discovered to be out of substantial compliance with contractual or programmatic requirements, the provider agency is required to submit a corrective action plan to HHSC." HHSC also added clarifying language to the corrective action plan elements.

Appendix I

HHSC as applicable, removed the term "provider" and replaced it with contractor.

HHSC added "desk reviews" to the contract staff pre-monitoring activities, and "provide the sample list (on-site reviews)" to the contract staff monitoring activities.

HHSC clarified that after monitoring the contract staff make a referral to the contract manager and removed the reference to the Adverse Action Review Committee.

HHSC added the following language related to electronic visit verification (EVV) in I-1 "Financial Integrity" section.

"In the DBMD program, Personal Care Services requiring EVV are in-home respite. Home Health Care Services requiring EVV in the DBMD program, for a member who does not receive assisted living services, are any nursing service, occupational therapy and physical therapy service, when provided in the individual's residence.

A service provider or Consumer Directed Services (CDS) employee must use an HHSC-approved clock in and clock out method to begin and end service delivery when providing EVV services to an individual in the home or the community.

Three clock in and clock out methods are approved by HHSC; the Mobile Method, the Home Phone Landline method and the Alternative Device method. All clock in and clock out methods capture the type of service provided, the name of the individual to whom the service is provided, the date and times the provider began and ended the service delivery visit, the location, including the address, where the service is provided and the name of the person who provided the service. If a service provider or CDS employee fails to clock in or out of the EVV system or an HHSC-approved clock in or clock out method is not available, a program provider, FMSA, or CDS employer must manually enter an EVV visit into the EVV system.

HHSC may temporarily set the EVV claims matching process to bypass EVV claims in response to a disaster or temporary circumstances outside of the provider's or FMSA's control that may disrupt delivery of services."

Performance Measures

For performance measure C.b.1, HHSC updated the data source to "Other" and changed the sampling approach from less than 100 percent review to "100 percent Review" and unchecked the box in "other" and removed the language that stated, "FMSA legal entities are selected for

monitoring based on contract effective date, previous formal or intermittent monitoring exit date, overall compliance score of the previous formal monitoring and expenditures".

HHSC revised performance measure C.b.2 The revised measure reads as, "Number and percent of monitored FMSA contracts that met program and fiscal monitoring requirements, evidenced by an overall monitoring score of at least 90%. N: Number of monitored FMSA contracts that met program and fiscal monitoring requirements, evidenced by an overall monitoring score of at least 90%. D: Number of FMSA contracts monitored." For this measure, the sample was clarified to indicate, "Maximum sample of 30 is selected per FMSA legal entity monitoring".

HHSC revised performance measure C.b.3. The revised measure reads as, "Number and percent of CDS employees reviewed during FMSA monitoring that had a signed service provider agreement. N: Number of CDS employees reviewed during FMSA monitoring that had a signed service provider agreement. D: Number of CDS employees reviewed during FMSA monitoring." HHSC selected "other" for the sampling and added the following language, "FMSA legal entities are selected for monitoring based on contract execution date, previous formal or intermittent monitoring exit date, overall compliance score of the previous formal or intermittent monitoring, and expenditures. Maximum sample of 30 is selected per FMSA legal entity monitoring".

HHSC updated language to "contracts staff conducts an intermittent monitoring as a result the corrective action plan to ensure" instead of "monitors the plan of correction until."

HHSC further revised the sampling approach to use term "execution date" instead of "effective", and "formal or intermittent monitoring" instead of "formal monitoring."

For performance measure C.b.2, C.c.2, and I.a.2 HHSC added the following sampling approach language "Maximum sample of 30 is selected per FMSA legal entity monitoring."

For performance measure C.c.1, HHSC replaced the term "DBMD provider agencies" with "service providers" and updated the data source to "Other".

For performance measure C.c.2, HHSC updated the data source to "Other".

HHSC removed performance measure C.c.3, which previously stated, "Number and percent of provider staff meeting state training requirements by receiving a score of at least 80% on the HHSC DBMD computer based trainings. N: Number of Provider staff receiving a score of at least 80% on the HHSC DBMD Computer Based training. D: Number of provider staff required to complete training during the reporting.

Appendix Miscellaneous

HHSC updated references to the TAC changing references from Title 40 to Title 26 throughout the waiver application. Rules of the former Department of Aging and Disability Services (DADS), which were in Title 40, have been transferred to Title 26.

HHSC as applicable, replaced "term" with "execution".

HHSC replaced "Adverse Action Review Committee" with "contract manager".

The DBMD waiver program provides essential community-based services and supports to individuals with legal blindness, deafness, or a condition that leads to deafblindness, and at least one additional disability that limits functional abilities and who live in their own homes or in the home of another person, such as a family member or in a small group home setting.

Services and supports are intended to enhance quality of life, functional independence, health and welfare, and to supplement, rather than replace, existing informal or formal supports and resources. Services in the DBMD waiver program are case management, residential habilitation, respite (in-home and out of home), supported employment, prescribed medications, financial management services, support consultation, adaptive aids and medical supplies, assisted living, audiology services, behavioral support, chore services, dental treatment, dietary services, employment assistance, intervener, minor home modifications, nursing, occupational therapy services, orientation and mobility, physical therapy services, speech, hearing and language therapy, transition assistance services, employment readiness and individualized skills and socialization.

Public Notice

The Texas Health and Human Services Commission (HHSC) is submitting a request to the Centers for Medicare & Medicaid Services (CMS) to amend the waiver application for the Texas Home Living (TxHmL) program. HHSC administers the TxHmL program under the authority of Section 1915(c) of the Social Security Act. CMS has approved the TxHmL waiver application through February 28, 2027. The proposed effective date for this amendment is March 15, 2026.

The amendment proposes to make changes to Appendix C, E, and I of the waiver application to update Texas Administrative Code (TAC) references and update the formal monitoring frequency for program providers and Financial Management Service Agency's (FMSAs) following a determination of acceptable compliance during an intermittent monitoring review. HHSC updated performance measure language in Appendix C to align with the updated monitoring frequency.

The request also proposes to amend Appendix I of the waiver application based on the 2026-27 General Appropriations Act, Senate Bill 1, 89th Legislature, Regular Session, 2025, (Article II, HHSC, Rider 29) to include HHSC policies on the bypass and claims matching process during disasters or temporary circumstances that may disrupt the delivery of services but are out of the provider's or FMSAs control. HHSC also clarified existing Electronic Visit Verification (EVV) policies.

Appendix C

HHSC as applicable, updated the term "reviews" to "formal monitoring reviews".

HHSC as applicable, updated the term "Qualified Personnel" to "Staff Member and Service Provider Requirements".

HHSC added the following language regarding FMSA intermittent monitoring for Employment Readiness, Behavioral Health Support, Respite, Supported Employment, Financial Management Services, Support Consultation, Adaptive Aids, Audiology Services, Community Support, Dental Treatment, Dietary Services, Employment Assistance, Individualized Skills and Socialization, Minor Home Modifications, Nursing, Occupational Therapy Services, Speech-Language Pathology and Physical Therapy Services in the Frequency of Verification section of Appendix C:

"Each new financial management services agency that must be monitored according to HHSC policy, is monitored within the first 15 months of contract execution. Thereafter, contracts staff conduct formal monitoring of financial management services agencies at least every three years. Financial management services agencies are monitored more frequently if the need is indicated or if there is a complaint filed against the financial management services agency. As a result of reviews, contracts staff will recoup the financial management services agency monthly fees for service providers who were unqualified at the time they provided the service. Findings from monitoring reviews and complaint investigations may result in a corrective action plan and may go to the contract manager to determine whether actions should be taken against the financial management services agency, including referral hold, vendor hold, and involuntary contract termination.

Contracts staff must conduct intermittent monitoring for financial management services agencies that do not meet an acceptable compliance level during formal monitoring reviews. If the FMSA achieves an acceptable level of compliance during the intermittent monitoring, contracts staff will conduct the next formal monitoring within three years. Contracts staff respond to complaints received against a financial management services agency for failure to maintain provider qualifications. HHSC levies appropriate provider agreement actions and sanctions for failure to follow the provider agreement requirements based on the results of the monitoring activity."

In the Verification of Provider Qualifications, Frequency of Verification section of appendix C, HHSC added the following language for Employment Readiness for the Consumer Directed Services (CDS) option to align with current TAC, "An individual employer and financial management services agency are both required by 26 TAC Chapter 264 CDS Option to verify that a service provider meets the qualifications required by the individual's program rules before being hired. A financial management services agency is required to obtain and retain documen-

tation on file that a service provider continues to meet the qualifications required by the individual's program rules, policies, and manuals, and other state and federal regulations."

HHSC updated the term "individual providers" to "service providers."

Appendix E

HHSC added language in Oversight of FMS Entities section stating "Financial management services agencies may have up to 5 different CDS program contract types. CDS TxHmL may not be pulled into the sample; therefore, a financial management services agency legal entity is monitored according to the frequency methodology but not each CDS TxHmL contract is monitored."

Appendix I

HHSC updated existing language regarding EVV requirements. HHSC added the following language that clarifies the EVV policies, "In the TxHmL program, Personal Care Services requiring EVV are respite (in home) and individualized skills and socialization (in home). Home Health Care Services requiring EVV in the TxHmL program are any nursing service, occupational therapy and physical therapy service, when provided in the individual's residence.

A service provider or Consumer Directed Services (CDS) employee must use an HHSC-approved clock in and clock out method to begin and end service delivery when providing EVV services to an individual in the home or the community.

Three clock in and clock out methods are approved by HHSC; the Mobile Method, the Home Phone Landline method and the Alternative Device method. All clock in and clock out methods capture the type of service provided, the name of the individual to whom the service is provided, the date and times the provider began and ended the service delivery visit, the location, including the address, where the service is provided and the name of the person who provided the service. If a service provider or CDS employee fails to clock in or out of the EVV system or an HHSC-approved clock in or clock out method is not available, a program provider, FMSA, or CDS employer must manually enter an EVV visit into the EVV system.

HHSC may temporarily set the EVV claims matching process to bypass EVV claims in response to a disaster or temporary circumstances outside of the provider's or FMSA's control that may disrupt delivery of services."

HHSC updated the term "are monitored" to "receive a formal monitoring".

Performance Measures

HHSC revised performance measure C.b.1 to use the term "contract qualifications" instead of "qualifications." The revised measure reads as, "Number and percent of newly enrolled financial management services agency contracts that met initial contract qualifications. The revised numerator reads: Number of newly enrolled financial management services agency contracts that met initial contract qualifications."

HHSC revised performance measure C.b.2 to add the term "fiscal" to clarify the measure includes contract and fiscal monitoring instead of just "contract monitoring." HHSC revised the numerator to add the term "fiscal" to "contract monitoring." HHSC also revised the denominator to remove "using the CDS Program Tool and removed from the measure "continually."

The revised measure reads as, "C.b.2 Number and percent of monitored FMSA contracts that met contract and fiscal monitoring requirements, evidenced by an overall compliance score of at least 90%. N: Number of monitored FMSA contracts that met contract and fiscal monitoring requirements, evidenced by an overall compliance score of at

least 90%. D: Number of FMSA contracts monitored." HHSC further revised the sampling approach to use term "execution date" instead of "effective" and "formal or intermittent monitoring" instead of "formal monitoring." HHSC also clarified that the maximum sample is 30 per FMSA legal entity.

HHSC removed performance measure C.b.3., "Number and percent of monitored FMSA contracts that continually met fiscal monitoring requirements, evidenced by an overall compliance score of at least 90%. N: Number of monitored FMSA contracts that continually met fiscal monitoring requirements, evidenced by an overall compliance score of at least 90%. D: Number of FMSA contracts monitored using the CDS-Tax Tool." This measure was removed since the monitoring will now be combined and C.b.2 was updated in this amendment to include the fiscal monitoring component.

HHSC replaced performance measure C.c.1 to "C.c.1 Number and percent of monitored financial management services agencies that completed all required training in accordance with the approved waiver. N: Number of financial management services agencies that completed all required training in accordance with the approved waiver. D: Number of financial management services agencies requiring training." instead of "Number and percent of newly enrolled providers meeting initial provider training requirements according to the approved waiver. N: Number of newly enrolled providers meeting initial provider training requirements according to the approved waiver. D: Number of newly enrolled providers that required initial training." The sampling approach was revised to "Less than 100% Review" instead of "100% Review." HHSC added the following language under Other in Sampling Approach, "FMSA legal entities are selected for monitoring based on contract effective date, previous formal or intermittent monitoring exit date, overall compliance score of the previous formal or intermittent monitoring, and expenditures. Maximum sample of 30 is selected per FMSA legal entity monitoring."

In Appendix C HHSC updated language in the Methods for Remediation section regarding the FMSA. HHSC used the term "financial management services agency legal entities" instead of "provider agencies" and the term "corrective action plan" instead of "plan of correction." HHSC also updated the term "Adverse Action Review Committee" to "contract manager".

In Appendix C Methods for Remediation section HHSC updated the language "monitors the plan of correction until" to "contracts staff conducts an intermittent monitoring as a result of the corrective action plan to ensure", and HHSC updated the actions that the contract managers may take.

The TxHmL waiver provides essential community-based services and supports to individuals with intellectual disabilities who live in their own homes or in the home of another person, such as a family member. Services and supports are intended to enhance quality of life, functional independence, and health and well-being in continued community-based living and to supplement, rather than replace, existing informal or formal supports and resources.

Current services in the TxHmL waiver are respite, supported employment, prescription medications, financial management services,

support consultation, adaptive aids, minor home modifications, audiology services, behavioral support, community support, dental treatment, dietary services, employment assistance, occupational therapy services, physical therapy services, nursing, speech-language pathology services, employment readiness, and individualized skills and socialization.
